

# Alien landing!

Aliens have crash landed in the Key Stage One paddock!

Whilst they are repairing their spaceship the children are going to take the opportunity to teach them our school rules.

We will also be talking about how we are all different.

We will be using adjectives to write descriptions of aliens and where they live. We will be taking the aliens for a walk around our local area and teaching them geographical vocabulary.

They look very smart in their uniforms and are joining in with many aspects of school life.

We will be sorry to see them go once their spaceship is mended.
