

I think it is a dragons egg.

The dragon is red and black and orange. It is as big as a car.

The dragon has big wings that flap.

It is a friendly and happy flying dragon.

The dragon lives in the dark cave near a waterfall. The dragon laid the egg in the forest school to keep it safe.

It was scared of cretors. The dragon grows loud. It breaths fire and smoke.

I think a dinosaur laid this egg.
The egg was so big bigger than a persons
foot. It was black and golden. when the
egg hatched wings. The baby dinosaur cried
when it was born. The dinosaurs lived in the
forest.
