

Big write - who laid the egg?
I think the dragon laid the egg.
The egg looks like a whale
head. The dragons fly high up in
the sky - sometimes they walk
with a loud thudding noise.
The dragons live in a dark cave.
The cave is dark and very scary.
The dragon breathe ~~of~~ fire and
can turn things into dark
grey ashes.

I think it could be a dragon.

The dragon will be black

with orange stripes like the

egg. The dragon flies in the

sky very fast. He growls.

The dragon lives in a cave,

which is dark and cold.

The dragon was flying when

he dropped the egg in

the bird forest.
