Is there enough for everyone? How can we find out? Find a set of objects. (between 6 and 10) Find 4 soft toys or teddies. Do you have enough objects for each toy to have 1 each? Are there enough left for them all to have 2 each? What about 3? Talk to your grown up about how you did it and what you found out.

(If your grown up is really kind, they might let you use biscuits or sweets!!)

Tell us something you have learned this week.
