

Music

In our Music lessons we have been looking at how different instruments make sound.

We can **shake**, **scrape**, **tap** or **pluck** the instruments to create sounds.

We also looked at how to keep a regular **beat**.

We played the beat on our own instrument and our friends copied us with their instruments.

Some of us have got instruments at home. Miss Douglas bought in her daughter's **violin**, Lewis bought in his **Ukelele** and Mrs Norris bought in her husband's **trumpet**.

We had a go at trying to get a note out of the trumpet. It was quite hard but we were surprised at how many of us managed it!

We felt the **vibrations** on our lips and our hands when we were playing the instruments.
