

Summer 1– I Wonder...

7 Areas of Learning:

Personal, Social & Emotional Development (PSED) – We follow the Jigsaw Scheme of work and our topic this half term is ‘Relationships’. We will talk about our friendships in school and what it means to be a good friend.

Communication & Language – We will talk about new experiences and continue to take part in a range of listening games in order to improve these important skills.

Physical Development – We will begin to master basic movements such as running and jumping. We will also develop our throwing and catching skills.

Literacy - We will recall events from the stories that we read. We will ask questions to further our knowledge and listen for repeated refrains.

Maths – During our maths sessions we will explore shapes and find them in our environment. We will begin to order events such as morning routines and compare them to routines in school.

Understanding the World – We will continue to learn about the natural world and start by creating our own artwork based on wildlife.

Expressive Arts & Design – We will develop our understanding of using lines to enclose spaces and begin to use drawings to represent actions and objects based on our imagination, observations and experiences.

Nursery

Silver Class: Mrs White, Mrs Bura and Mrs McBrearty

Platinum Jubilee Class: Mrs Gammon

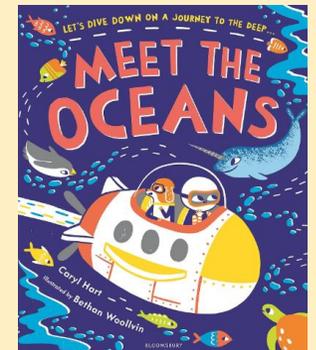

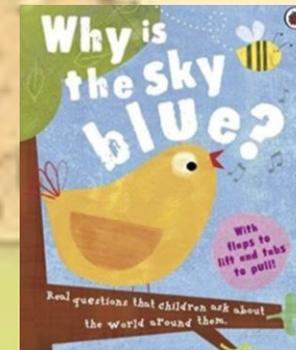

Charles Class: Mrs Camfield

Early Years Leader: Miss Yates & Mrs White

Things you could do at home:

- Talk about your wordless book with an adult
- Look for Spring plants and flowers when out walking. Can you see any blossom?
- Talk about your morning routines. What do you do first when you wake up?

We will be reading...
