

Autumn

We went outside to explore Autumn leaves. We looked at the trees and the leaves on the floor. We talked about 'Autumn Changes'. We used our senses to explore the leaves and we found adjectives and expanded noun phrases to describe them. Back in class we used these words to write some poems.

We talked about deciduous and evergreen leaves. We went for a walk in the school grounds to collect different types and colours of leaves. When we got back into class we sorted our leaves.

We went for a walk to Houghton Hall Park.

We looked for signs of Autumn.

We looked at different environments... the vegetable garden, the open fields and the woodland.

We had a fantastic morning out of school!
