

# Florence Nightingale

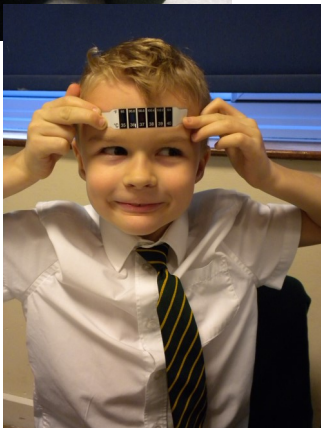

We have done lots of work about Florence Nightingale. In History we have found out about her life, why she is famous and how she improved hospitals and nursing. In Geography we looked at a map of Europe to find key places that Florence visited. In English we learned to write Information texts. In Science we learned all about our body and healthy living. We used the Red Cross website to learn simple First Aid. We looked at Braille on medicine boxes and had great fun practising our First Aid on each other!

We assembled the Velcro skeleton and then added labels for the main bones

We used the i-pads to find out about Florence Nightingale's life.

We looked at how animal skeletons are different to human skeletons.

In PE we talked about the parts of the body and muscles we were using. We felt our heart beat and put each other in the recovery position.
