

FUN WITH MAGNETS

This week it is British Science Week. On Tuesday 12th March we had a special day. We invited our parents to come and share a Science lesson with us. We did one lesson in the morning and one lesson in the afternoon. It was lovely sharing our classroom with so many of our parents.

Our Science topic this half term is 'Properties of Materials'. Today we investigated the property of 'magnetism'. We had great fun exploring magnetic force. Then we investigated how far magnetic force can travel. Finally we made a magnetic game which we could take home to share our learning with our families.
