

British Science Week

During Science week, we experimented with the properties of water and learnt that it can freeze and melt. UTW TW 3.3 & 3.4.

For Taste Tuesday, the children made their own fruit salads, discussing the different tastes and textures of the fruits. EAD EUMM 3.9.

The children found planting cress seeds a very exciting way to learn how seeds turn into plants and that plants need water, sun and air to grow. UTW TW 3.2, 3.4 & 3.5.
