

Dear Parents

Throughout the year we monitor and record your child's progress and development in many ways including observations, talking and discussions. We also listen to the things you tell us about your child and the things they do at home. We love sharing the 'Wow' vouchers and the home learning slips!

Please could you help us gather information for the following:

- *Children recognise that a range of technology is used in places such as home and school.*
- *They select and use technology for particular purposes.*

Please tell us the things your child uses at home. Can they use the remote control? Do they have a leap pad/i-pad? Can they use your smart phone? Do they role play for example pretend to use the cooker or washing machine?

- *Children know the importance for good health of physical exercise and a healthy diet and talk about ways to keep healthy and safe.*

Here are some things you may like to consider. Does your child know why they have to clean their teeth or wash their hands? Do they belong to any sports or dance clubs? Do they like being active? Can they talk about healthy and unhealthy foods?

Thank you for your continued support
