

Monday 18<sup>th</sup> January .

Lo: To describe a dragon .

The dragons skin is dark purple . It's eyes are red in the inside and shimmering gold on the outside . when it walks it walks with a thump like some thunder . The dragon lives in dragon land where the other dragons live . The dragon egg came from a good dragon and a bad dragon stole the egg and he dropped the egg in forest school . The dragon breathes flaming hot fire when it burps or coughs .

 L.O: To describe a dragon

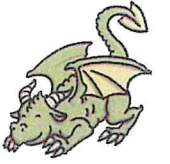

The dragon has sharp, mighty claws like a lion. It has pointy, long horns and it's roar can be heard from 15 miles away. It has a scaly tail like a slithering snake. The dragons ears shoot out sharp, shiny spikes and it breathes out fire. When ~~some~~ something is coming it turns invisable. It's black all over. It has red, dangerous eyes and they out lazors because it doesn't want to get a seriously, painful ~~ingery~~ injury. The roar it makes can make people deaf and even make an Earth & quake. It lives in the Quarry in Houghton Regis and people have seen the gigantic, dangerous dragon ~~but~~ but it's very hard to see because it's mostly invisable.

 Lo: to describe a dragon

my dragon has red fiery eyes  
 and sounds like a lion but a mad  
 lion It lives in a cave at the  
 bottom of a mountains It can fly  
 like a eagle and run like a  
 hyena but a bit slower and could  
 camouflage like a geko. He has a  
 terrible breath. that smells like  
 rotten eggs and burnt toast and  
 He's even put an other dragon  
 on fire because He's so big and  
 strong and fierce.
