

Year 4 Learning

This year so far we have been learning about the Romans and part of our homework was to build a Roman Villa. Here are some examples of Roman Villas we did for home work. There were some fantastic efforts.

In Science we are investigating Forces and Magnets and this pictures show how we are discovering that magnets can attract and repel some materials and not others.

In PE we are looking at ABC – Agility, Balance and Co-ordination within ball skills and look forward to Luton Town Football Club Coaches teaching us new skills.
